

The *Manhattan Foundation for Educational Excellence* was formed in 1997 in order to generate supplemental funds for the school district to meet needs that are not within the constraints of the current operating budget.

Various fundraising projects are conducted throughout the school year; profits from these fundraisers help to finance projects and items which directly enhance the education of the students in the district.

***We are currently seeking new members to join the
Foundation to help accomplish our lofty goals.***

Meetings are held once a month during the school year.
